

Dear Parents

Explanation of Marks on myBishopslife

- The latest marks for this semester can be found by clicking the “Tasks breakdown by subject for current cycle” tab.
- All subjects have sections and these sections are weighted towards the subject mark.
- Within each section there are a number of tasks – some formal and some informal.
- All tasks within a section are weighted depending on the degree of difficulty and importance.
- Not all tasks are released to the portal, therefore the marks released for each task might not add up to the percentage for each section.
- The overall subject mark as of today is correct. The subject mark will change as the semester unfolds and marks are added to the database.
- Once reports have been generated all marks used to obtain a final percentage for subjects will be on myBishopslife.

The boys are always told that everything that they do in class is important. We need to encourage our boys to have a growth mindset and work to the best of their ability during all activities – not only for tests. Developing good work habits and a passion for learning are vital at this early age and imperative for success in later life.
