BISHOPS BLUE PAGES

BUSINESS PAGES FROM BISHOPS DIOCESAN COLLEGE

16TH EDITION

Live humbly and
with moral courage

Respect, nurture
and value every
individual in our
community

LOCAL TO CAPE TOWN, INTERNATIONALLY CONNECTED.

Wishing all Bishops Blue Pages readers a prosperous 2023 from Richard Hardie, Director of Hardie Property.

Our first two and a half years in business has been overwhelmingly amazing, thank you for all the support. A business which was created in 'hard lockdown' with a passion for real estate, creativity and marketing. As a small business, there are no hard and fast rules. We can adapt to each client and make deals work swiftly. We have worked with a number of buyers exclusively and to date have collaborated on 24 deals working with other agencies.

Our international reach stretches beyond where you would expect. Richard has worked internationally for 16 years in Central London and Guernsey (CI) which has led to a number of deals in Cape Town where properties have been bought unseen based on trust and reputation. We are closely aligned with The London Broker and a number of platforms including Rightmove International.

Let us be the key to your success in 2023.

Are you concerned about your parent's physical safety & security?

Burglaries, home invasions and hijackings are an unfortunate reality in South Africa today, and retirees living in large free-standing homes are often considered soft targets by criminals because of their advanced age and physical frailty. The emotional toll of living in fear of crime and violence can significantly erode one's quality of life and even reduce life expectancy.

**PHYSICAL
SECURITY**

That's why, at Evergreen, protecting residents is our top priority. Villages are secured with electric fencing, CCTV cameras, 24hour patrols, strict access control, and emergency call buttons in all homes.

Are you battling to convince your parents that it's time to downsize?

Retirees are often resistant to the idea of moving to a retirement village, preferring to move in with their children, or stay put in the family home as long as possible. They see it as a step down, a curtailment of their freedom and their quality of life.

**EXCEPTIONAL
HOSPITALITY**

But Evergreen's retirement villages are a far cry from the institutionalised hospital-based old age homes of the past. They offer spacious upmarket homes in pristine, professionally managed estates, along with hotel-like catering and hospitality, resort-style facilities and amenities, and world class healthcare.

Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CISs are traded at the ruling price and can engage in strip lending and borrowing. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. Performance for the A1 Class has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of entry fees, the actual investment date, the date of reinvestment and dividend withholding tax. Full performance calculations are available from the manager on request. Annualised performance. Annualised performance shows longer term performance replicated to a 1-year period. Highest and lowest return: The highest and lowest returns for any 1 year over the period since inception have been shown. NAV: The net asset value represents the assets of a Fund less its liabilities. Market Neutral highest rolling 1-year return 11.9%, lowest rolling 1-year return -10.8%; Long Short highest rolling 1-year return 45.8%, lowest rolling 1-year return -34.0%; Aggressive Long Short highest rolling 1-year return 69.6%, lowest rolling 1-year return -33.6%.
