# WELCOME TO BISHOPS 175

## Welcome to the 175 Rugby Sevens Festival.

As we celebrate 175 years since our founding in 1849, we want to share this occasion with our local schools and clubs, all of which have contributed so much to our rugby and the life of our school over the years. Without you, our friendly rivals, we have no game, no competition and no opportunity to connect our boys across schools. Now they support their school passionately and hopefully always will, but in time they will be friends and many of them colleagues in their adult lives.

As schoolboy rugby, particularly in higher age groups, teeters on the brink of over-professionalisation in certain quarters, this opportunity to play Rugby 7s from U10-U13 reminds us of the exciting, fast pace Bishop's rugby aspires to, but also the fact that it is a game. A game to enjoy, a game where skills are developed, but a game in which there is a place for every boy, where mass participation can be the order of the day.

As we welcome you all here to this 175 Rugby Sevens Festival, we also remember Rick Skeeles, an old boy of the school, a very successful rugby player in his own right, but, above all, a legendary schoolmaster. One who loved to see boys play all games and the man after whom our first 7s Festival was named.

Thank you for joining us and celebrating with us. Enjoy the rugby, the connections and the friendship.

Best wishes  
**Greg Brown**

**“We play rugby  
with our opposition  
against the laws of the game”  
*Doc Danie Craven***

As we start a new rugby season it would be a good time to reflect on all that goes into making a successful season. Our ground staff who work tirelessly on ensuring that our fields are in immaculate condition. Our parents who run the tuck-shop, who lift and carry children to matches and practices. The medics who ensure that all players are looked after when injured. The refs who need to make split second decisions on a multitude of actions by players. The coaches who inspire their players, who seek to use rugby as a teaching tool to teach some of life's greatest skills and attitudes. Players in lower teams who ensure we have depth in each age group, who push us to be better. Our opposition who each week give us matches in which we can test our skills.

We have so much to be thankful non more than an ability to be out on the field running and enjoying being able to express ourselves.

We wish all players, parents, staff, and supporters a wonderful rugby season.

Best wishes

**Brendan Fogarty**
